

## COLORMAX®

ColorMAX fences are highly resistant to the vagaries of Mother Nature! Offering exemplary durability, they are designed with Galvanized steel allowing them to face the various weather conditions specific to Eastern Canada. Rain, snow, wind, this fence does not deteriorate easily! This will bring the desired privacy to your outdoor environment for many years.

ELEMENT	STANDARD DIMENSIONS	WEIGHT	GAUGE
A) Rail	93.31" / 2370mm	3.46 kg	28
B) Panels	32.52"x 70.47" / 826mm x 1790mm	5.31 kg	22
C) Gate	Custom sizes		
D) Doorframe	Height 70.47" / 1790mm	8 kg	16
E) C post	102" / 2951mm	4.1 kg	22
F) Square post	2.5"x 2.5"x 94.5" / 65mm x 65mm x 2400mm	7.1 kg	16

\* Note : The dimensions of the panels can be modified on request (width and height of the sections).

## MAIN FEATURES

- ZINCALUME®. Solid steel base protected against rust by a hot-dip galvanizing process.
- Anti-corrosion chemical treatment for better adhesion.
- Surface baked polyester primer.
- Baked paint système according to AS/NZS2728. Provides increased resistance to chipping and cracking so the finish retains its shine longer.

## INSTALLATION

- Refer to the installation guide available on our website in the documentation page.

## ADVANTAGES

- Made of 100% Galvalume® steel
- Durable and solid design
- Simple and efficient installation
- High-end finish

## USES

- Residential
- Commercial
